Valogix LLC Achieves Built for Oracle NetSuite Verification

Valogix SuiteApp Meets the NetSuite SuiteCloud Platform's Development Standards and Documented Best Practices for NetSuite version 2018.2

Saratoga Springs, NY October 2, 2018

Valogix LLC, a global provider of advanced, cloud-based inventory planning and optimization solutions, announced today that the VALOGIX® Inventory Planner SuiteApp has achieved **Built for Oracle NetSuite** verification. The SuiteApp, built using NetSuite's SuiteCloud Computing Platform, helps to automate the planning process including forecasting, replenishment planning and inventory optimization.

The Valogix Inventory Planning SuiteApp enables companies to reduce costs, increase productivity and provide a very quick and significant return on investment (ROI). Seamlessly integrated with NetSuite, the Valogix SuiteApp automatically provides inventory replenishment orders, transfers, work orders and interacts directly with NetSuite for automated processing.

Built for Oracle NetSuite is a program for the NetSuite SuiteCloud Developer Network (SDN) partners that provides them with information, resources and a methodology to verify that their applications and integrations, built using the NetSuite SuiteCloud Computing Platform meet new NetSuite standards and best practices. The Built for NetSuite program gives NetSuite customers the confidence that SuiteApps have been built to meet these rigorous standards.

"Our team works diligently to insure our hundreds of NetSuite customers around the world meet their inventory investment and planning goals. Since its inception, Valogix has achieved the important Built for NetSuite status for our Valogix Advanced Inventory Planning SuiteApp," said Tom Glacken, Senior Vice President of Sales and Marketing.

Valogix inventory planning solutions solve the many inventory challenges with easy-to-use, affordable inventory planning and optimization features that provide users with a rapid return on investment. Valogix LLC is an award-winning NetSuite partner since 2010 and serves hundreds of NetSuite customers and partners around the world.

Valogix inventory planning solutions provide customers with an excellent ROI:

- Reduce inventory by 20 to 40 percent or more
- Increase planner productivity by up to 85 percent
- Reduce stock-outs and overstocks, shipping costs and lost sales
- Increase sales by having the stock on hand as needed
- Improve customer satisfaction levels
- Happier employees who now have the right easy to use tools

About NetSuite SuiteCloud

Oracle NetSuite's SuiteCloud is a comprehensive offering of cloud-based products, development tools and services designed to help customers and commercial software developers take advantage of the significant economic benefits of cloud computing. Based on NetSuite, the industry's leading provider of cloud-based financials / ERP software suites, SuiteCloud enables customers to run their core business operations in the cloud, and software developers to target new markets quickly with newly-created mission-critical applications built on top of mature and proven business processes.

The SuiteCloud Developer Network (SDN) is a comprehensive developer program for Independent Software Vendors (ISVs) who build apps for SuiteCloud. All available SuiteApps are listed on SuiteApp.com, a single-source online marketplace where NetSuite customers can find applications to meet specific business process or industry-specific needs. For more information on SuiteCloud and the SDN program, please visit: <http://www.netsuite.com/developers>.
